Required Minimum Distribution Gifts to Silver Key

After the age of 70½, individuals typically must start taking withdrawals from their IRA, SEP IRA, SIMPLE IRA, or retirement plan account. The required withdrawal is referred to as the Required Minimum Distribution (RMD): the minimum amount an individual must withdraw, by rule, from their account each year. Failure to comply with RMD amounts means that an individual may face tax penalties up to 50%. NOTE: In response to COVID-19, Congress passed the CARES Act suspending in 2020 the Required Minimum Distribution (RMD) for IRAs. The waiver includes RMDs for those who reached age 70½ and who would be required to take their first RMD by April 1 of 2020. This waiver also includes RMDs from inherited IRAs for 2020. Combined with the SECURE Act that moved the commencement of RMDs for those who had not reached age 70½ before January 1, 2020, to age 72, this has effectively pushed the initial RMD back several years for those who turn 70½ in 2020.

When planning your IRA withdrawal strategy, Silver Key invites you to consider making a charitable donation to our efforts through a Qualified Charitable Distributions (QCDs). A QCD is a direct transfer of funds from your IRA overseer, payable to a qualified charity.

Your gift to Silver Key can be counted toward satisfying your RMDs for the year and helps us ensure older adults in our community have the choice to age safely in place with dignity and independence. It is advisable to check with your tax advisor to determine if these tax incentives would be beneficial to you.
