Silver Key Reserve & Ride Senior Assistance Active Living

April 2020

CEO Report

Dear Board Members,

Winston Churchill first said: "Never let a good crisis go to waste." Today, that quote seems to be a bit of a mantra that has been both inspiring, daunting and never been truer than now at Silver Key. We have been at the forefront of many of the community response efforts related to COVID-19 including addressing food insecurities, ensuring people are provided rides to essential medical appointments and supported in other areas of assistance including addressing issues of loneliness and despair.

Opportunities have emerged in the wake of the crisis and Silver Key is poised to respond:

- 1. Home Delivered Meals have grown
- 2. Reserve and Ride Transportation is delivering food from the pantry
- 3. Senior Assistance is providing calls of reassurance and behavioral health access
- 4. Paycheck Protection Program application has been approved (\$547,000)
- 5. Donations are on the uptick
- 6. Sponsors continue to expand
- 7. No staff attrition related directly to COVID-19 has occurred

Silver Key is level setting itself in a rare time of opportunity to accelerate much of the needed infrastructure needs to position for growth in the wake of COVID-19. We will be a stronger organization and thus foster a healthier senior living community as a result of the strength of Silver Key that is being developed over the course of the year.

Respectfully submitted,

Jason DeaBueno

Governance Decisions, Monitoring & Accountability

Current Significant Issues & Opportunities

a. Nutrition Program

- i. A separation of a long-term staff person has occurred in the nutrition area due to insubordination.
- ii. The State Unit on Aging has followed the Governors order to create flexibility in program and funding to care for seniors in need.

Board Dialogue/Consultation

iii. The expansion is occurring, but the sustainability of the expansion will need to be evaluated. Part of the solution is to re-develop the role that was separated and expand the volunteer support model.

b. Transportation

i. Silver Key has made the decision that all riders are required to wear face protection.

Board Dialogue/Consultation

While no issues have emerged at Silver Key as a result of this
decision, the City of Colorado Springs has been challenged by clients
wanting to ride without face protection and the City was not able to
enforce the request. Enforcement is a private business decision which
should empower Silver Key to enforce but would like consultation. The
City as a governmental entity has less latitude.

c. Silver Key Food Panty

i. The pantry will be moving toward a 5-day a week program.

Board Dialogue/Consultation

 While supply chains for food have not been evident, we may experience challenges. Thoughts on addressing these issues if presented are appreciated.

PURPOSE

According to federal regulation 41 CFR § 60-2.10, "an affirmative action program is a management tool designed to ensure equal employment opportunity. A central premise underlying affirmative action is that, absent discrimination, over time a contractor's workforce, generally, will reflect the gender, racial and ethnic profile of the labor pools from which the contractor recruits and selects. Affirmative action programs contain a diagnostic component which includes a number of quantitative analyses designed to evaluate the composition of the workforce of the contractor and compare it to the composition of the relevant labor pools. Affirmative action programs also include action-oriented programs. If women and minorities are not being employed at a rate to be expected given their availability in the relevant labor pool, the contractor's affirmative action program includes specific practical steps designed to address this underutilization. Effective affirmative action programs also include internal auditing and reporting systems as a means of measuring the contractor's progress toward achieving the workforce that would be expected in the absence of discrimination.
